### House rules for the evening:

**At check-in:** Each player will receive \$5,000 of free funny money!

**At 7 p.m.:** Casino Party Aces will open the tables and keep them open for three full hours of fun. Players redeem their funny money for chips at any casino table and are free to move from table to table to try their luck at different games including Blackjack, Roulette, Craps, Poker, Let-it-Ride and Three Card Poker.

**At 10 p.m.:** The tables will close after approximately three hours. At the end of the night, chips are converted to raffle tickets at a rate of 1 ticket for every \$2,500 in chips. This is your chance to win great prizes!

### Don't know how to play? No problem!

Casino Party Aces Dealers teach all the games on the spot! Party Aces Dealers are skilled and friendly, so no matter what your skill level – newbie or seasoned gambler – you'll be raking in the fun!

### Let's review the main games:

**Blackjack:** Blackjack is by far the most popular casino game in America. The objective is to beat the dealer's hand and get as close to 21 as possible without going over 21 (called "busting"). The Players and Dealer receive two cards each. The Players' cards are dealt face up, while the Dealer has one face down (called the hole card) and one face up.

If you want to play like a pro, ask a Party Aces Dealer to teach you "Basic Strategy." Blackjack is a game of skill, not solely chance like other casino games. By using mathematical playing and betting techniques, it's possible to swing the odds in your favor!

### A few Blackjack terms to remember:

**Hitting:** This means you want the Dealer to give another card to your hand. Tap the table behind your cards with your finger.

**Standing:** This means you are satisfied with the total of the hand and want to stand with the cards you have.

**Surrendering:** In some games you can forfeit your hand immediately with an automatic loss of half the original bet (if you think you can't beat the Dealer's hand). Half a loss is better than losing the entire bet!

**Roulette:** Roulette is named after the French word meaning "little wheel." Players place bets on either a single number, various groupings of numbers, the colors red or black, whether the number is odd or even, or if the numbers are high (19–36) or low (1–18). The Dealer spins the wheel in one direction, then spins a ball in the opposite direction until it falls into one of 38 (American style roulette) pockets on the wheel. The winnings are then paid to anyone who has placed a successful bet.

**Craps:** Craps is of the most exciting (and loudest!) of casino table games. In casinos you'll often hear a roar of Players cheering for their favorite numbers. In brief, Players bet by placing chips on the "pass line" on the craps table. Craps can be as simple as betting on one number and either winning or losing on each

roll, or as complex as making a bet, waiting until the shooter rolls a target, or "point" number, then hoping the shooter can roll the same number again. Casino Party Aces will take the time to explain all the rules!

**Poker:** Played in the World Series of Poker, Texas Hold 'Em is easily the most popular poker game in America today. In Texas Hold 'Em, players are dealt two "pocket" or "hole cards" then wait for 5 community cards to be revealed. Betting takes place in four rounds and Players must make their best hands with any combination of 5 cards (their hole cards and the communal).
